SUMMARY

Java Full Stack Developer with X+ years of experience in building robust backend systems using Java 8, Spring Boot, Hibernate/JPA, and RESTful APIs. Possess basic knowledge of Microservices architecture, service communication, and deployment strategies. Experienced in integrating APIs with frontend technologies and collaborating in Agile teams. Committed to writing clean, maintainable, and efficient code.

PROFESSIONAL EXPERIENCE

Software Developer, Digital Brolly, Hyderabad

Dec 2024 - Present

- Developed and maintained backend components for internal websites using Spring Boot, Java 8, and SQL.
- Worked on API development and integration with basic exposure to Microservices concepts like service discovery and REST communication.
- Collaborated with frontend developers to integrate APIs and troubleshoot issues.
- Used Postman for API testing.

Software Developer, Paritech Solutions, Hyderabad

Jun 2024 - Nov 2024

- Built RESTful web services using Java 8 and Spring Boot.
- Implemented persistence layer using Hibernate/JPA with MySQL.
- Hands-on experience in generating and integrating API based on request.

PROJECTS

Student Management Tool (SMT)

- Extended functionalities of an existing student system by adding new features on demand.
- Focused on creating REST APIs based on frontend needs and connecting backend services.
- Worked closely with UI developers to ensure seamless frontend-backend integration.
- Technologies: Java 8, Spring Boot, REST API, MySQL, Postman

Learning Management System (LMS)

- Developed the Attendance Management Module for tracking daily logs.
- Contributed to UI changes for improving user experience and responsiveness.
- Technologies: Spring Boot, PostgreSQL, HTML/CSS, REST API

SKILLS

- · Languages: Java 8, SQL, JavaScript
- Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate/JPA
- Architecture: Monolithic Systems, Basic Microservices (Spring Cloud, Eureka, API Gateway)
- Frontend: HTML5, CSS3, JavaScript, React.js
- Tools & Technologies: REST API, Postman, Maven, Git
- Databases: MySQL, PostgreSQL

EDUCATION

Master of Computer Applications - 75% Vignan Institute of Information Technology, Visakhapatnam	Feb 2021 - Oct 2022
B.Sc - Computer Science - 71% SSR Degree College, Machilipatnam	Jul 2017 - Jan 2021
Intermediate - MPC - 77% Narayana Junior College, Machilipatnam	Jul 2015 - Apr 2017
Secondary Education - 75% Jawahar Public School, Machilipatnam	Jul 2014 - Apr 2015

ADDITIONAL INFORMATION

- Languages: English, Telugu
- Awards/Activities: Participated in the hackaton conducted in Vignan college
